

A Book of Radish Recipes: Official Cookbook of The Loyal Kingdom of Radish

Throughout the world, the radish is grown liberally. They can come in many different shapes, colours and sizes but one thing they all have in common is that they are all so good to eat. This book is a compilation of recipes assembled from a variety of sources and written by many different authors which, in one way or another, all cleverly utilise the tantalising flavour of this simple food in many different ways. This recipe book has been created Under Appointment to King Ronald of Radish, the revered Sovereign of The Loyal Kingdom of Radish. In 1984, Ron Mealing, who compiled this book, published a childrens illustrated story book entitled Adventures in the Lost Kiingdom of Radish which traced various strange activities in this mythical Kingdom somewhere out there in which the humble radish played a very important role, Ron has commenced to bring his original creation to the silver screen as an animated feature film and, on the way, decided that an assembly of radish recipes into an Official Cookbook of The Loyal Kingdom of Radish was highly appropriate as a companion work to his eventual theatrical release. Interlaced throughout the book are many illustrations showing some of the earliest development of the story. Cooking, throughout the world, at times, uses some strange names for some of the things a recipe wants you to do. At the end of this book is a Glossary containing a detailed explanation of a number of these which may appear within one or more of the many radish recipes contained in this compilation.

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
