

The Economy of Iraq: Oil, Wars, Destruction of Development and Prospects, 1950-2010 (Contributions in Economics & Economic History)

The economy of Iraq has fluctuated wildly since the 1950s. It has been affected by changes in governments, by wars, and by general instability. This book analyzes a complex subject and is especially timely at this critical juncture in the history of Iraq, the Middle East, and international relations. Abbas Alnasrawi traces the growth of the Iraqi economy since 1950, assesses its present state of crisis and underdevelopment, and explores its prospects for recovery. Alnasrawi contends that the economic development of Iraq was shaped by the rise in oil revenue, the war between Iran and Iraq, and the invasion of Kuwait and its aftermath. The discussion begins with the burst of Iraq's oil industry and the development policies under the monarchy. Subsequent chapters highlight development planning during the first ten years of the republic, the development plans of the ruling Baath party, the destructive consequences of the Iran-Iraq war and the recent invasion of Kuwait, and the future of the Iraqi economy to the year 2010. This in-depth examination puts this subject into a manageable context for students of the Middle East, multinational oil, Third World development, and international relations.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning

rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
