

The Guided Reader to Teaching and Learning History

The Guided Reader to Teaching and Learning History draws on extracts from the published work of some of the most influential history education writers, representing a range of perspectives from leading classroom practitioners to academic researchers, and highlighting key debates surrounding a central range of issues affecting secondary History teachers.

This book brings together key extracts from classic and contemporary writing and contextualises these in both theoretical and practical terms. Each extract is accompanied by an introduction, a summary of the key points and issues raised, questions to promote discussion and suggestions for further reading to extend thinking. Taking a thematic approach and including a short introduction to each theme, the chapters include: The purpose of history education; Pupil perspectives on history education; Assessment and progression in history; Inclusion in history; Diversity in history; Teaching difficult issues; Technology and history education; Change and continuity; Historical Interpretations; Professional development for history teachers. Aimed at trainee and newly qualified teachers including those working towards Masters level qualifications, as well as existing teachers, this accessible, but critically provocative text is an essential resource for those that wish to deepen their understanding of History Education.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
