

## The Overthrow of Colonial Slavery: 1776-1848 (Verso World History Series)

In 1770 a handful of European nations ruled the Americas, drawing from them a stream of products, both everyday and exotic. Some two and a half million black slaves, imprisoned in plantation colonies, toiled to produce the sugar, coffee, cotton, ginger and indigo craved by Europeans. By 1848 the major systems of colonial slavery had been swept away either by independence movements, slave revolts, abolitionists or some combination of all three. How did this happen? Robin Blackburn's history captures the complexity of a revolutionary age in a compelling narrative. In some cases colonial rule fell while slavery flourished, as happened in the South of the United States and in Brazil; elsewhere slavery ended but colonial rule remained, as in the British West Indies and French Windwards. But in French St. Domingue, the future Haiti, and in Spanish South and Central America both colonialism and slavery were defeated. This story of slave liberation and American independence highlights the pivotal role of the first emancipation in the French Antilles in the 1790s, the parallel actions of slave resistance and metropolitan abolitionism, and the contradictory implications of slaveholder patriotism. The dramatic events of this epoch are examined from an unexpected vantage point, showing how the torch of anti-slavery passed from the medieval communes to dissident Quakers, from African maroons to radical pirates, from Granville Sharp and Ottobah Cuguano to Toussaint LOuverture, from the black Jacobins to the Liberators of South America, and from the African Baptists in Jamaica to the Revolutionaries of 1848 in Europe and the Caribbean.

Hansen Family Farm  
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to

grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
