

The Prix Volney: Its History and Significance for the Development of Linguistics Research: Volume Ia and Volume Ib (Prix Volney Essay Series) (v. 1)

The primary sources upon which this series is based are the manuscripts submitted for the Prix Volney which are housed at the Archives of the Institut de France. During the 1970s and 1980s, the study of the history of linguistics was rapidly developing in both the United States and Europe. We therefore proposed to implement a research and publication project to analyze and comment upon selected Prix Volney manuscripts and their subjects. The Prix Volney, awarded from 1822 onwards by the Institut de France, was the first major international prize to recognize work in general and comparative linguistics. Entries were submitted anonymously from all over the world and in at least six languages. It was the major linguistic prize of the nineteenth century and the first of its kind. It still survives today. Some of the essays submitted were by well known authors (including those in other fields such as politics, military science, law and anthropology); some were by authors not so well known or very obscure. In the period from approximately 1983 to 1986, the series editor, Joan Leopold, sent a preliminary list of all the essays submitted for the Prix Volney competition between 1822 and 1876 to scholars who had participated in the 1981 or 1984 International Conferences on the History of the Language Sciences (ICHoLS II and III) held at Lille and Princeton.

Hansen Family Farm Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
