

Illicit: How Smugglers, Traffickers and Copycats are Hijacking the Global Economy

Pick up a newspaper anywhere, any day, and you will find reports of illegal migrants, drug busts, smuggled weapons, and laundered money or counterfeit goods. Illicit trades are booming and so are the traffickers revenues and their political influence. Hamstrung bureaucracies in rich and poor countries alike are losing the battles against these agile, well-financed, politically powerful, and ever-shifting networks of determined individuals. Religious and political zeal drive terrorists, but it turns out that simple profit is no less a motivator for political upheaval and international instability. Black-market networks are stealthily transforming global politics and economics. Filled with fast-paced, vivid examples that are as real as they are surprising, *Illicit* shows how we got to this dangerous point and stresses the interconnections between these illegal enterprises, how they endlessly recombine to breed new lines of business, distort the economy of entire countries and industries, enable terrorists and even take over governments. From pirated movies to weapons of mass destruction, from human organs to endangered species, drugs or stolen art, *Illicit* reveals the inner workings of these amazingly efficient international organizations and shows why it is so hard and so necessary to contain them. *Illicit* offers a fresh, ingenious and compelling vision of this untold story of globalization. It provides a powerful new lens with which to assess how today's world really works and where it may be headed. *Illicit* will surely ignite urgent debate at the highest levels and change the way you think about the world.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very

select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
