

Century of Service: The History of the South Alberta Light Horse

This is the story of Alberta's senior militia regiment, which celebrates its centennial in 2005. Although it was authorized in 1905, the SALH traces its origins to the 1880s when cavalry units were raised to protect Alberta during the Northwest Rebellion. This fascinating study takes Her Majesty's Cowboys from the 1880s to the 21st century. It describes how the predecessor units of the modern Light Horse fought for their nation in wartime and struggled to stay alive in peacetime. The reader will accompany the Light Horse as they fight in the Rebellion of 1885, South Africa in 1899-1901, the Western Front in the First World War and Northwest Europe in the Second World War. More recently members of the regiment have helped to keep the peace in Afghanistan and the former Yugoslavia. The story of the SALH includes that of the World War II South Alberta Regiment, whose story was told in more detail in *SOUTH ALBERTA* (by the same author), described by more than one reviewer as among the best regimental histories ever published.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms,

open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
