

## The Story of Reason in Islam (Cultural Memory in the Present)

In *The Story of Reason in Islam*, leading public intellectual and political activist Sari Nusseibeh narrates a sweeping intellectual history—a quest for knowledge inspired by the Quran and its language, a quest that employed Reason in the service of Faith. Eschewing the conventional separation of Faith and Reason, he takes a fresh look at why and how Islamic reasoning evolved over time. He surveys the different Islamic schools of thought and how they dealt with major philosophical issues, showing that Reason pervaded all disciplines, from philosophy and science to language, poetry, and law. Along the way, the best known Muslim philosophers are introduced in a new light. Countering received chronologies, in this story Reason reaches its zenith in the early seventeenth century; it then trails off, its demise as sudden as its appearance. Thereafter, Reason loses out to passive belief, lifeless logic, and a self-contained legalism—in other words, to a less flexible Islam. Nusseibeh's speculations as to why this occurred focus on the fortunes and misfortunes of classical Arabic in the Islamic world. Change, he suggests, may only come from the revivification of language itself.

Hansen Family Farm  
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull

day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
