

## The Third Asiatic Invasion: Migration and Empire in Filipino America, 1898-1946 (Nation of Nations)

Winner of the 2012-2013 Asian/Pacific American Librarians Association Book Award  
Winner of the 2013 American Sociological Association's Asia and Asian America Section Distinguished Book Award

The first half of the twentieth century witnessed a wave of Filipino immigration to the United States, following in the footsteps of earlier Chinese and Japanese immigrants, the first and second Asiatic invasions. Perceived as alien because of their Asian ethnicity yet legally defined as American nationals granted more rights than other immigrants, Filipino American national identity was built upon the shifting sands of contradiction, ambiguity, and hostility. Rick Baldoz explores the complex relationship between Filipinos and the U.S. by looking at the politics of immigration, race, and citizenship on both sides of the Philippine-American divide: internationally through an examination of American imperial ascendancy and domestically through an exploration of the social formation of Filipino communities in the United States. He reveals how American practices of racial exclusion repeatedly collided with the imperatives of U.S. overseas expansion. A unique portrait of the Filipino American experience, *The Third Asiatic Invasion* links the Filipino experience to that of Puerto Ricans, Mexicans, Chinese and Native Americans, among others, revealing how the politics of exclusion played out over time against different population groups. Weaving together an impressive range of materials including newspapers, government reports, legal documents and archival sources into a seamless narrative, Baldoz illustrates how the quixotic status of Filipinos played a significant role in transforming the politics of race, immigration and nationality in the United States.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
