

Titan: The Art of British Power in the Age of Revolution and Napoleon

When the leaders of the French Revolution executed Louis XVI and Marie Antoinette in 1793, they sent a chilling message to the hereditary ruling orders in Europe. Believing that monarchy anywhere presented a threat to democratic rule in France, the leaders of the revolution declared war on European aristocracies, including those of Great Britain. For more than twenty years thereafter, France and England waged a protracted war that ended in British victory. In *Titan*, William R. Nester offers a deeply informed and thoroughly fascinating narrative of how England accomplished this remarkable feat. Between 1789 and 1815, British leaders devised, funded, and led seven coalitions against the revolutionary and Napoleonic governments of France. In each enterprise, statesmen and generals searched for order amid a complex welter of bureaucratic, political, economic, psychological, technological, and international forces. Nester combines biographies of great men like William Pitt, Horatio Nelson, and Arthur Wellesley with an explanation of the critical decisions they made in Britain's struggle for power and his own keen analysis of the forces that operated beyond their control. Their efforts would eventually crush France and Napoleon and establish a system of European power relations that prevented a world war for nearly a century. The interplay of individuals and events, the importance of conjunctures and contingency, the significance of Britain's island character and resources: all come into play in Nester's exploration of the art of British military diplomacy. The result is a comprehensive and insightful account of the endeavors of statesmen and generals to master the art of power in a complex battle for empire.

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
