

## The Dialectical Tradition in South Africa (Studies in Philosophy)

This book brings into view the most enduring and distinctive philosophical current in South African history one often obscured or patronized as Afrikaner liberalism. It traces this current of thought from nineteenth-century disputes over Dutch liberal theology through Stellenbosch existentialism to the prison writings of Breyten Breytenbach, and examines related themes in the work of Olive Schreiner, M. K. Gandhi, and Richard Turner. At the core of this tradition is a defence of free speech in its classical sense, as a virtue necessary for a good society, rather than in its modern liberal sense as an individual right. Out of this defence of free speech, conducted in the face of charges of heresy, treason, and immorality, a range of philosophical conceptions developed of the self constituted in dialogue with others, of freedom as transcendence of the given, and of a dialectical movement of consciousness as it is educated through debate and action. This study shows the Socratic commitment to following the argument where it leads, sustained and developed in the storm and stress of a peculiar modernity.

### Hansen Family Farm

#### Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
