

The New Chicago Diner Cookbook: Meat-Free Recipes from Americas Veggie Diner

Thirty years after opening, the Chicago Diner is still the Windy City's premier vegetarian eatery, now with two locations and a national fan base. In honor of this momentous anniversary, the Chicago Diner is releasing this new cookbook, reflecting the wealth of new recipes, vegetarian and vegan dining sensibilities, and anecdotes from the kitchen of this award-winning foodie favorite. In an attempt to eat healthier, Mickey Hornick became a regular at a local hippie haunt, the Breadshop Kitchen, where Jo Kaucher baked bread. One day, Hornick quit his job and took a position in Kaucher's kitchen as a dishwasher, despite his rudimentary knowledge of vegetables and warnings that the restaurant would soon go under. While Hornick and Kaucher were unable to save the Breadshop, they reunited to found the Chicago Diner. Predating the exponential growth of veggie-friendly dining in the 1990s and 2000s, the Chicago Diner set an example of how a successful vegetarian restaurant could thrive, even in meat-and-potatoes cities like Chicago. The Chicago Diner is a staple of the city's culinary scene, earning a Michelin Guide recommendation as well as numerous local and national accolades.

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning

rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
