

Vegetable Soups from Deborah Madisons Kitchen

In *Vegetable Soups from Deborah Madisons Kitchen*, Americas favorite vegetarian cookbook author presents more than 100 inventive and straightforward soup recipes guaranteed to satisfy appetites all year long. Deborah Madison has shown millions of Americans how to turn vegetables and other healthful ingredients into culinary triumphs. In her newest collection of recipes, She serves up a selection of soups ranging from stylish first courses to substantial one-bowl meals. Madison begins with a soup-making primer and streamlined recipes for vegetable stocks and broths (such as the Hearty Mushroom Broth), which serve as the foundation for many of the recipes that follow, for those who wish to make their own. Soups like the Mexican Tomato Broth with Avocado and Lime can start a supper or stand alone as a simple, light meal. Cooks looking for heartier choices will find satisfying dishes such as Potato and Green Chile Stew with Cilantro Cream or grain-based soups like the Wild Rice Chowder. Organized by seasons, the recipes make the most of the produce from a springtime Fennel and Almond Soup with Saffron and Ricotta Dumplings to a deeply flavorful autumnal Roasted Squash, Pear and Ginger Soup. When time just isnt available and prepared soups take the place of home made, Madison offers a battery of suggestions for how to make them your own with simple additions from delicious oils and herbs to an invigorating Cilantro Salsa. Featuring fifty stunning full-color photographs by Laurie Smith, serving suggestions, wine notes, and a host of ideas for creative finishing touches including caramelized pear croutons and souffled cheese toasts, this friendly soup lovers guide gives the reader a hundred delicious ways to enjoy the benefits and flavors of vegetables by the bowlful throughout the seasons. When I said I was working on a soup book, the response was often, Oh, I

love soup! People enthuse about soup in a way that's so heartwarming it makes me feel as if I'm in the right camp... The soups in this book are based on vegetables, and many of these recipes are new ones for me. But some are soup classics, by which I mean some of those that have stood the test of time in my kitchen, (Quinoa, Corn, and Spinach Chowder) and those that are classics in the culture (Boston-Style Black Bean Soup). I've tried to streamline these dishes as much as possible without sacrificing goodness, so that you can easily enjoy them in your own kitchen. I hope you do enjoy making these soups and add them, one by one, to your repertoire. from the Introduction

Hansen Family Farm

Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Phil and Christie Hansen

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition

we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
