

Social Text 84-85: Whats Queer about Queer Studies Now?

This special double issue of *Social Text* reassesses the political utility of the term queer. The mainstreaming of gay and lesbian identity as a mass-mediated consumer lifestyle and an embattled legal category demands a renewal of queer studies that also considers the global crises of the late twentieth century. These crises, which are shaping national manifestations of sexual, racial, and gendered hierarchies, include the ascendance and triumph of neoliberalism; the clash of religious fundamentalisms, nationalisms, and patriotisms; and the return to moral values and family values as deterrents to political debate, economic redistribution, and cultural dissent. In sixteen timely essays, the contributors map out an urgent intellectual and political terrain for queer studies and the contemporary politics of identity, family, and kinship. Collectively, these essays examine the limits of queer epistemology, the potentials of queer diasporas, and the emergence of queer liberalism. They rethink queer critique in relation to the war on terrorism and the escalation of U.S. imperialism; the devolution of civil rights and the rise of the prison-industrial complex; the continued dismantling of the welfare state; the recoding of freedom in terms of secularization, domesticity, and marriage; and the politics of citizenship, migration, and asylum in a putatively postracial and postidentity age. Contributors: Michael Cobb, David L. Eng, Roderick A. Ferguson, Elizabeth Freeman, Gayatri Gopinath, Judith Halberstam, Janet R. Jakobsen, Joon Oluchi Lee, Martin F. Manalansan IV, Jose Esteban Munoz, Tavia Nyong'o, Hiram Perez, Jasbir K. Puar, Chandan Reddy, Teemu Ruskola, Nayan Shah, Karen Tongson, Amy Villarejo

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
