

# Why Have the Judges Fallen?: Expert Witness Testimony of Corruption in Social Security Disability Adjudications

The author exposes corruption in the Social Security Disability (SSD) Program. Bullyish Administrative Law Judges (ALJs) at the Social Security Administration (SSA) Offices of Disability Adjudication and Review repeatedly tampered with the witness prior to and during SSD adjudicative hearings (appeals of disabled claimants who have applied for and been denied financial benefits) by advising the vocational expert witness to attest to inaccurate, perceptibly fraudulent employment numbers (numbers of jobs on the economy individuals could perform given their residual functional capacities (RFCs) or disability-related limitations. Whereas, SSA vocational experts have routinely and inaccurately provided Department of Labor Occupational Employment Survey (OES) Census Group numbers rather than reporting the significantly smaller (more accurate) job numbers for the specific Dictionary of Occupational Titles (DOT) job listings, the vocational expert witness author of this book discovered the disparity between the exaggerated numbers and the accurate numbers and brought the disparity to light with ALJs, some of which ALJs demanded that the vocational expert continue to attest to the larger sets of numbers even though they grossly overestimated the number of jobs claimants with disability-related limitations could perform. Since the vocational expert noted that essentially all of the vocational experts in two separate states were testifying wrongfully, it is reasonable to believe that fraudulent testimony, perjury, and ALJ tampering with the witness is and has been occurring throughout the United States, perhaps for many years. As a result, potentially multitudes of claimants have been defrauded due benefits. Many such claimants may have suffered financially and otherwise, and perhaps, unable to afford their necessary medications, some

have even died following receipt of fraud-based wrongful denial decisions. Within the context of a hearing in which the author testified as a vocational expert, an attorney representative uncovered the disparity between the larger and smaller sets of employment numbers and took action. Despite attorney correspondence to the SSA Inspector General, the SSA has taken no apparent action to resolve these issues of fraud, perjury, and tampering with the witnesses. One would think SSA representatives would be anxious to correct these issues in order to avoid widespread agency embarrassment in light of the national attention the attorneys litigation received. The author testifies of her experience as a vocational expert in this matter. The author has since become a social security disability representative.

#### Hansen Family Farm

##### Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

Latest News....

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition

we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
