

A Woman Named Damaris (Women of the West #4)

She was almost fifteen on the night she dared for the first time to think of what life might be like away from home. Pa again had come home drunk and mean; the trauma of the subsequent scene had been repeated as long as Damaris could remember. The idea that she no longer needs to tolerate this, that maybe she's old enough to manage on her own, is planted in her mind and begins to grow. She must plan her escape carefully, but she must get away from him. When the opportunity comes, Damaris carries with her the strength of her mother's love. Two treasures hidden for years from her father her grandmother's lacy golden brooch and her grandfather's lovely watch are Damaris' only legacy from her past. That and her name. Her mother said it came from the Bible and had a special meaning that she can't remember anymore. What difference might it make? But Damaris can't escape the aloneness that haunts her life or the bitterness she feels when she sees others suffering, particularly children. Ultimately, she must come to terms with her past, learn to live in her present circumstances, and trust her future to another Father. She discovered much more than the meaning of her name in that book.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the "locavores", food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning

rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
