

The Womens War of 1929: A History of Anti-Colonial Resistance in Eastern Nigeria (African World Series)

This book offers a narrative and analysis of a central event in the colonial history of Nigeria the Womens War of 1929, also called the Aba Womens Riots by colonial officials. The Womens War of 1929 addresses the historical debates related to the causes and consequences of the event with assessments of each sides strengths and weaknesses. Focusing mainly on the actions of African participants, the book explains the cultural, social, and economic issues that led to the Womens War and the reasons why women used specific strategies. It also evaluates the aftermath of the conflict and how the protest practices used by Igbo and Ibibio women influenced British colonial policy. The book goes further than other historical accounts of the Womens War by evaluating subsequent womens protests into the 1930s. The volume includes a large collection of primary documents reproduced for print from archives in Nigeria and London. A chapter designed for students gives context to the documents and offers a short guide on how to use them effectively. The document collection offers insights into more than just the Womens War, owing to firsthand accounts and opinions from Igbo and Ibibio people, as well as how colonial officials described life under British colonialism. The documents section is designed to be a primary resource for students and professors of African Studies, African History, British Imperial Studies, and Gender Studies so that readers interested in the subject have the chance to read the actual words of African women and colonial officials. This book is part of the African World Series, edited by Toyin Falola, Frances Higginbotham Nalle Centennial Professor in History, University of Texas at Austin.

Hansen Family Farm
Japanese Black Trifele

We are happy to provide quality fresh fruits, vegetables, Grass-fed and Finished Beef, Naturally & Humanely raised

Pork, Pastured Chickens, and Cage Free Eggs to Clackamas County sustainably on our small acreage.

We strive to provide vegetables that grow well in our climate ensuring the best tasting local food available. We prefer to grow old-fashioned and rare varieties of vegetables believing that they are the best to offer but do also grow a very select, few varieties of hybrids, but they are counted on one hand! Much of what we grow, we save the seed of every year and re-offer it to members of the Seed Savers Exchange.

We thank all of you, the “locavores”, food enthusiasts, market goers, and home chefs for making our goal of fresh, local, fruits and veggies sustainably a reality.

2015 is off to a great start! We are looking forward to what this year has to offer!

All our efforts are gearing up to get the growing season started...from ordering/starting/transplanting seeds, planning rotation crops for the fields, cleaning the greenhouses and field equipment, and clearing the fields! There is not a dull day here on the farm!

Planning for garden start varieties is in full swing also. This year we will be offering many of our favorite heirlooms, open-pollinated, and hybrid varieties that we have grown for the past 10+ years as well as many new-to-us varieties. We are diligent to not purchase, offer or grow GMO seeds or food.

Our mix of garden starts includes many different varieties of tomatoes, cucumbers, peppers, ground cherries, pumpkins, melons, flowers and other great things for your garden! Most, if not all, varieties are tried and true for our Pacific Northwest valley climate. Check out the Garden Start page for a printable list of varieties available. Or go directly to a specific list at our Tomato, Pepper, and Other garden start pages.

We grew over 100 heirloom/open-pollinated Pepper varieties and 125+ varieties of heirloom/open-pollinated Tomatoes in 2014! Not counting the numerous other garden necessities like heirloom flowers, cucumbers, summer and winter squash, herbs, and melons amongst other rare and hard to find vegetables! In 2015 we will continue with the tradition we've started and will be planting and growing almost all the varieties that have been started so that even if you don't buy a plant you have a chance to taste a range of different flavors!
